RE: **Brigham Services**

Dear Chris:

I wanted to take a personal moment to let you know how pleased I am with the services that you have been rendering to me and one of the client's of my firm. I have seen and utilized your reports on multiple claim files for defense and can honestly tell you that, at the least, you provided me with a decisive negotiating edge. I have deposed doctors utilizing your company's case and rating analysis and invariably, I have received diminished permanent impairment assessments.

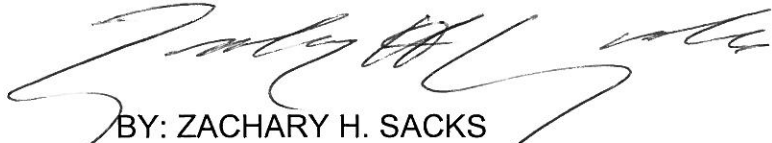

Additionally, I have worked closely with your lead California person, Craig Uejo. I found him to be knowledgeable, articulate and a potentially strong witness for trial testimony. Unfortunately, we were unable to challenge the system with the utilization of his testimony to assist the Trial Judge in formulating a rating because the case settled before I could put him on. His just being there saved a bundle of money for my client.

We have and continue to do a lot of work for School Districts, and manufacturing companies. I will continue to recommend your company's use because, frankly, you deliver a quality product.

Very truly yours,

SACKS & ZOLONZ, LLP
